

Math 241-01 (2:30 - 3:35 MWF 207 Ricker Addition)
Calculus III
Fall 2007

Instructor: Dr. Lori Koban

Office: Brinkman 204

Phone: 778-7952

E-mail: lori.koban@maine.edu

Webpage: <http://faculty.umf.maine.edu/~kobanl>

Office Hours:

I will be in my office at the following times: **MWF 10:30 - 11:30** and **TR 8:00 - 8:45**.
Please feel free to make an appointment for another time.

Text: Larson, Hostetler, & Edwards, *Multivariable Calculus*, 8th edition, Houghton Mifflin, 2006.

Materials: You need to bring a calculator to EVERY class. I recommend a TI-83/84. You may not use the calculator on your cell phone or lap top. I recommend that you have a three-ring binder for this class.

Course Description: We will cover most of Chapters 11-15 in our text.

Grades: Your grades will be calculated in the following way:

3 Exams	300 points (100 points each)
Cumulative Final Exam	150 points
Quizzes	150 points

Exams: There will be three exams. TENTATIVE exam dates are October 5, November 7, and December 7. Taking exams is not optional. Unless you have an excellent reason that is supported by documentation, there are no make-up exams. If you think that you have a reason to miss an exam, then contact me in advance and we will discuss your situation. If you miss an exam, then your score is a 0.

Final: The final exam is on Monday, December 17, 3:30 - 5:30.

Quizzes: There will be a quiz every Friday that is not part of an exam week. Each quiz is worth 20 points. Your eight best quizzes will count towards your quiz grade. (Notice that this gives you ten free points.) Each quiz may be in-class or take-home. If it is take-home, then it is due at the beginning of the class on Monday. If you are not present to receive or turn in a take-home quiz, then your score is a 0. There are no make-up quizzes. With each quiz, you may opt to turn in the homework assigned since the last quiz. Depending on the

quantity and quality of what you turn in, I will add either 0, 1, 2, or 3 bonus points to your quiz grade. I will not grade homework assignments that are not stapled.

Course Grades: Here is how your number of accumulated points will determine your grade. I reserve the right to change the scales to benefit the students.

	B+: 522 - 539	C+: 462 - 479	D+: 402 - 419	F: less than 360
A : 558 - 600	B : 498 - 521	C : 438 - 461	D : 378 - 401	
A- : 540 - 557	B- : 480 - 497	C- : 420 - 437	D- : 360 - 377	

If your grade is borderline (eg. 497 points), I may increase your grade (give you a B instead of a B-) if your class attendance, participation, and effort have been exceptional throughout the semester.

Attendance: I expect you to attend every class. Missing even one class is unacceptable, unless you have a very good reason. Please come to class on time. Attendance will be taken at 2:30 sharp.

Cell Phones: Turn them off before class. The first time your cell phone makes noise in class, you get a warning. For each subsequent offense, I will deduct one letter grade from your next exam grade. You are not allowed to use the calculator on your cell phone.

Students Needing Special Accommodation: Equal educational opportunity is offered to students with special needs due to disabilities. Please notify me if a reasonable accommodation is needed to meet course requirements.

Academic Honesty: If you cheat, the minimal penalty is a grade of "F" on the pertinent exam (or assignment). The maximal penalty is a grade of "F" in the course AND my recommendation that your cheating be brought to the attention of the Director of Student Judicial Affairs and the Dean of your college.
