Memorial University
St. John's, Newfoundland
June 7-8, 1997

Volume 10
Twenty-Third Annual Meeting

Société Canadienne d'histoire
et philosophie des mathématiques

Canadian Society for the History
and Philosophy of Mathematics

PROCEEDINGS OF THE

Proceedings of the CSHPM/SCHPM 23rd Annual Meeting
Memorial University
June 7-8, 1997

Table of Contents

Preface

Special Session/Session Speciale
Science and Mathematics

| | |
|----|---|
| 1 | Rudiger Theile (University of Leipzig) Leonard Euler (1707-1783): Episodes from his Life and Work |
| 27 | Rebecca Adams (Southern California College) Mathematics and Phylloctaxis |
| 34 | Erwin Kreytzig (Carleton University) Basic Ideas in Modern Numerical Analysis and Their Origins |
| 46 | Sharon Kunoff (Long Island University) Advances in the Study of the Three Body Problem |
| 51 | Michael Pool (University of Western Ontario) Mathematical Knowledge in the Regulae |

Regular Session/Session Ordinaire
Contributed Papers

| | |
|-----|---|
| 60 | Fran Ables (Kean University) Some Mathematical Letters of Charles Dodgson, 1866-1867 |
| 68 | Amy Ackenberg-Hastings (Iowa State University) How Straight Must a Straight Line Be to Be Straight? The Teaching of Euclidean Geometry in the Early Republican United States |
| 78 | William S. Anglin (University of Toronto) The History of the Bachet Equation: From Diophantus to Baker |
| 102 | Edward Cohen (University of Ottawa) A Short History of Gregorian Calendar Reform |
| 117 | Aditi Gowri (University of Texas at Austin) Mathematical Revitalizations |
| 133 | Roger Godard (Royal Military College of Canada) History of the Least Squares Method and Its Links with Linear Algebra |
| 148 | Peter L. Griffiths (Independent Scholar) The Mathematics of the Projection Maps of Erlaub (1511) and Mercator (1569) including Comments from Edward Wright (1599) |
| 159 | Jacques Lefebvre (Université du Québec à Montréal) The Importance and Ambiguity of Mathematics in the Works of Robert Musil |
