

PROCEEDINGS OF THE

Canadian Society for History
and Philosophy of Mathematics

Société Canadienne d'Histoire
et de Philosophie des Mathématiques

Volume 13

Twenty-Sixth Annual Meeting

McMaster University
Hamilton, Ontario
June 10-13, 2000

Edited by

Michael Kinyon
Western Michigan University

Table of Contents

<i>Preface</i>	iii
<u>Invited Speaker</u>	
Rüdiger Thiele	
<i>Hilbert and his 24 Problems</i>	1
<u>Special Session</u>	
“History of Mathematics at the Dawn of a New Millennium / L’Histoire des Mathématiques à l’Aube d’un Millénaire Nouveau”	
Erwin Kreyszig	
<i>“Modern” Starts</i>	23
Daryn Lehoux	
<i>On the Alleged Zodiacal Calendar in Geminus and Miletus I</i>	44
Adrian Rice	
<i>A Gradual Innovation: The Introduction of Cauchian Calculus into Mid-Nineteenth-Century Britain</i>	48
Donna I. M. Spraggon	
<i>Felix Klein’s Erlanger Programm and Its Influence</i>	64
<u>General Session</u>	
Francine Abeles	
<i>Game Theory and Politics: A Note on C.L. Dodgson</i>	77
Amy Ackerberg-Hastings	
<i>The Semi-Secret History of Charles Davies</i>	85
Christopher Baltus	
<i>Gauss’s Second Proof of the Fundamental Theorem of Algebra, 1815</i>	97
Edward Cohen	
<i>Simon Newcomb and the Leap-Year Problem</i>	107

Roger Godard	
<i>A Study Of The Interpolation Theory from Lagrange up to 1950s</i>	121
Nicholas Griffin	
<i>Russell, Logicism, and 'If-thenism'</i>	134
Sharon Kunoff	
<i>A Commentary on the First Hebrew Geometry and its Relationship to the First Arabic Geometry</i>	147
Gregory Lavers	
<i>Carnap, Gödel and Friedman on Analyticity</i>	154
Albert C. Lewis	
<i>The Contrasting Views of Charles S. Peirce and Bertrand Russell on Cantor's Transfinite Paradise</i>	159
Hugh McCague	
<i>The Mathematics of Building and Analysing a Medieval Cathedral</i>	167
Duncan J. Melville	
<i>Third-Millennium Mathematics: A Brief Survey</i>	175
Gregory H. Moore	
<i>Editing Mathematicians: The Cases of Kurt Gödel and Bertrand Russell</i>	188
Ariane Robitaille	
<i>Can We Learn Something About Combinatorics From Review Journals?</i>	196
Robert S. D. Thomas	
<i>Mathematics and Fiction: A Pedagogical Comparison</i>	204
Glen Van Brummelen	
<i>Sin(1°): From Ptolemy to al-Kāshī</i>	209
